# SELF-SERVICE TERMINAL

---

Professional Design  
Convenient Operation  
Intelligent Management

## Sunson Innovation\*

This product is a self-service terminal with multiple functions such as document printing, advertising, business promotion, etc. It supports ID card, QR and fingerprint functions. It can be used in hospitals municipal halls, etc.

## FEATURES

- **Professional Design:** With 32" screen and modern appearance. Displays with high definition could enhance brand recognition.
- **Convenient operation:** Operation is fast, no delay, and more sensitive to the user. The guidance of words, animated pictures, and sound could make users operate easily. Multi-function design could improve service efficiency.
- **Intelligent management:** Connecting with the customer management system, makes the user check the order easily. With large memory, more history data can be quickly queried locally.
